

Week 5 Submission

Project Title: Sports Tournament Management System

Description:

A web-based application that automates tournament management including registration, scheduling, live scoring, and reporting. The system reduces manual work, ensures transparency, and provides real-time updates to players, organizers, and audience.

Key Features:

- User & Admin authentication
- Team & player registration
- Automatic fixture generation
- Live score updates
- Notifications & results display
- Reports & analytics

Objective of Week 5:

To finalize project description and features, and submit the details via the provided Google Form.
